

SPOT WELDER

Spot Welders are custom designed to fit your existing or new fixtures for accurate spot welding. Midway engineers will work closely with you to design and build a Spot Welder to meet your needs for part size, weld type and volume.

Typical applications would include furniture and automotive parts with gage sizes that range from 7g to 24g.

✓ FEATURES

- › Allen Bradley PLC and controls.
- › Weld controls as specified.
- › Roman transformers.
- › Direct or series weld.
- › Custom designed to fit your needs.
- › Water cooled tips for extended life.
- › Multi-gun designs for lower cycle times.
- › No-show welds can be achieved on light gage sheet metal upon request.

We'll build a spot welder to meet your needs.
