

## STEAM TABLE TRAY LID CRIMPER

The Tray Lid Crimper is designed to crimp aluminum lids on half size aluminum steam table trays. This innovative design is easy to change for different tray heights. Choose from several different models, from a two head traveling crimper with speeds of more than 80 trays per minute, to a single head with Servo-Motor control for manually fed trays.

### FEATURES

- › Stainless steel and hard coat anodized aluminum construction.
- › Allen Bradley PLC and controls.
- › Heavy duty crimping parts and linear slides, for many years of service.
- › All electrical controls are housed in a Hoffman NEMA 4X waterproof enclosure, to provide protection from high pressure wash down.
- › New servo controlled option for flightless conveyors.
- › Custom designed to fit your needs.

**We'll build a steam table tray lid  
crimper to meet your needs.**
