

VACUUM FORM AND HEAT SEAL TOOLING

Using the latest technology in design and manufacturing, Midway Machine Technologies has become a leader in high quality tooling with problem solving results. From non-stick coatings, to corrosive resistant anodizing, Midway Machine Technologies has the right finish to fit your application.

FEATURES

- › Performance and life of each tool starts with the design.
- › Midway Machine Technologies has the latest in 3 dimensional CAD software, which provides the best engineering for today's complex tooling.
- › Complex shapes and close tolerances are easily accomplished through state of the art CNC milling equipment, producing the highest quality tooling in the industry.
- › Repairing and resurfacing can be a cost effective way of maintaining existing tooling. With a "hot job" status, parts can be turned around quickly.

We'll build vacuum forming and heat seal tooling to meet your needs.
